

2.2.1. Product contents

Delivery of advice on a range of issues

Advice means the examination of a particular question of a member company, which often requires more than a FAQ reply, and which may reveal some degree of complexity.

Themes:

Individual cases of individual labour law or HR management on a range of issues like leave, dismissal, payment wage, premiums and bad performance measurement

- Cases of collective labour law or HRM like labour rules in general, rules for home work, dispute, disciplinary rules
- Cases of company finances like lack solvability and credit
- Cases of civil law like commercial rent, bankruptcy and seizure
- Supply issues

The employers' organisation may also wisely choose to specialize in 1 domain and / or refer to other employers' organisations for other domains, or to commercial partners such as law firms and consultancy.
